FY05 COR TRAINING SCHEDULE

U.S. Army Contracting Command, Europe

Updated 7/13

NOTE: EFFECTIVE 11-15 July 2005 the COR class will be a five day course consisting of both services and construction. Every COR class will cover both services and construction material. Until further notices, the two separate textbooks and case studies books will be used. Students will be required to complete one examination covering both services and construction.

This schedule has been updated to reflect the class schedule for the remainder of FY 05. If interested in future classes, not scheduled, please contact the Course POC at the address shown at the bottom of this page. *** indicate new classes added.
